Need a reliable partner who is committed to ensuring that your goods are transported safely throughout Greece?

Whatever your business sector, products, and required transport capacity, you can count on us. As a Greek transport leader, we have the necessary experience, as well as the best drivers and resources, to design the right solution for your needs. As a service provider handling goods flows in Greece and worldwide, we play an active part in all stages of the supply chain, by providing and organising transport for packed goods (ambient or controlled temperature) and bulk goods (hazardous and non-hazardous).

ATHINAIKI S.A. experts are committed to providing safe and reliable transport, which will give a real boost to your supply chain.

What sets us apart:

- Customer confidence - proof of our commitment to being equally attentive to the needs of SMEs and multinationals

National Transport
